How do I leave a comment on the website?

You can leave a comment anywhere on the website where you see an "add new comment" link or an "add comment" text box, at the end of most regular articles. Comments are shown in date order at the end of the article to which the comment is added. They are visible to all website users, not just registered users (members). Unfortunately it's not possible to add comments to calendar events due to technical challenges that have not yet been overcome!

To leave a comment:

1. If you have a website login, use it to log-in first.
2. Click the "add new comment" if there is no comment (text) box visible.
3. If you don't have a login, you'll need to enter your name and email address in the comment form.
4. Type your comment into the comment box.
5. If you would like to receive email notification of any follow-up comments by others, check the box marked "notify me of follow-up comments".
6. Click send and you're done.

In case you want to see what a comment looks like, there's one right below this text!
