00000000000000000000000000000000000000

- The race is run on a course that is subject to strong tidal flows
- The course or race may be changed if weather conditions dictate
- All paddlers must have ICU Lever 2 (BCU 2*) skills or higher and may be asked for evidence of skill or competency/evidence of certification or club recommendation.
 - Race organisers decisions with regard to entry acceptance are final

- Neither the organisers nor the ICU accept responsibility for damage or loss

Safety Rules
o All participants must have a minimum of ICU level 2 (or BCU 2 *) proficiency level (evidence of certification or a club recommendation may be required).
o Certification of guardian or club coach is required in respect of paddlers under 16.
o Buoyancy aids and suitable clothing must be worn by all participants.
o Boats must pass through boat control where seaworthiness and safety equipment will be checked.
o Participants are advised to carry a whistle and radio equipment, if available.
o Neither organisers nor the ICU accept responsibility for any damage or loss.
o Race organisers' decisions with regard to entry acceptance are final.

The race will be run in an area that is subject to strong tidal flows. Participants are required to attend the course briefing before the race start. Safety procedures and any course alterations
